Overview

We were incorporated in the State of Nevada on March 31, 2011 under the name of Adelt Design, Inc.

Adelt Design, Inc. will market the sale of customized carpet binding art. The carpet binding art can be customized for a purchaser's personal use as well as corporate use. Since its inception, on March 31, 2011, Adelt Design, Inc. has incurred losses of \$15,530 to May 31, 2011.

GENERAL INTRODUCTION

Adelt Design, Inc. will market the sale of customized carpet binding art. This carpet binding art can be customized for a purchaser's personal use or for corporate use. Since its inception, on March 31, 2011, Adelt Design, Inc. has incurred losses to May 31, 2011.

Fashioning carpet into custom carpet binding art based on photographs is a specialty of Adelt Design, Inc. As a commercial artist, Mr. Adelt has refined this medium. Unlike portraits and other subjects done simply with inlays, Mr. Adelt's carpet binding art begins with a detailed sketch of a photo of the carpet binding art subject. The sketch shows every cut that will have to be made in the carpet, such as the eyes, nose, mouth, and other features. Following the sketch, Mr. Adelt hand carves and crafts all the features through repeated carving and applications of various dyes (the same acid based dyes used by the mills), until the desired tones and shading are obtained. Typical artists use clay or canvas as their media, while Mr. Adelt uses fine white wool or other blended carpet as the starting point.

Adelt Design, Inc. can produce carpet binding art as small or as large as ordered. Any requested design can be fashioned into carpet binding art once commissioned.

Adelt Design, Inc. has not commenced its major operations of having its carpet binding art marketed, and the Company has not distributed the product to anyone. The Company will market its carpet binding art in the Salt Lake City, Utah area. The Company will not start production of its carpet binding art until the Company has sold the product to a client. Adelt Design, Inc. is considered a development stage company because it has not commenced its major operations. In addition, the Company has not achieved any revenue in connection with its business to date. As a result, we are a startup company, which means that the Company has no operating history or revenue, and are at a competitive disadvantage.

We are paying the expenses of the offering because we seek to (i) become a reporting Company with the Commission under the Securities Exchange Act of 1934 (the "1934 Act"); and (ii) enable our common stock to be traded on the OTC Bulletin Board. We believe that the registration of the resale of shares on behalf of our existing security holders may facilitate the development of a public market in our common stock if our common stock is approved for trading on the OTC Bulletin Board.

We expect to continue to incur losses for at least the next 12 months. We do not expect to generate revenue that is sufficient to cover our expenses, and we do not have sufficient cash and cash equivalents to execute our plan of operations for at least the next twelve months. We will need to obtain additional financing, in the amount of \$75,000, to conduct our day-to-day operations, and to fully execute our business plan. We plan to raise the capital necessary to fund our business through the sale of equity securities. (See "Plan of Operation")

BUSINESS DEVELOPMENT

The Company was incorporated on March 31, 2011. The Company has had limited development stage operations from incorporation (March 31, 2011) to May 31, 2011.

Initial Sales Strategy

We have established a two-prong sales approach; our approach utilizes direct sales through Mr. Adelt. Our direct sales will be conducted by Mr. Adelt. He will market the product locally in the Salt Lake City, Utah area. The Company's current marketing strategy consists of various Point of Sale materials to include material to include advertising posters, flyers and magnetic strips with the Company name and its product developed by Mr. Adelt in the past several months. We also intend to derive sales from our internet website which is currently under development at: <http://www.adeltdesign.com>. We need further funding to complete the Company's internet website. In addition, sales will be done by word of mouth, referrals, and online marketing.

Subsequent Sales Strategy

Adelt Design, Inc. will commence the marketing of the carpet binding art for sale to the general public. The Company is presently developing its marketing program for the sale of its carpet binding art to the general public. The Company is not offering the product to anyone at this time. Adelt Design, Inc. is considered a development stage company because it has not commenced its major operations. In addition, the Company has not achieved any revenue in connection with its business to date. As a result, we are a startup company, which means that the Company has no operating history or revenue, and therefore is at a competitive disadvantage.

We have no operating history and expect to incur losses for the foreseeable future. Should we continue to incur losses for a significant amount of time, the value of your investment in the common shares could be affected downward, and you could even lose your entire investment.

We have not yet received any revenues from our development stage operations, nor have we otherwise engaged in any business operations. Adelt Design, Inc. is a development stage company and in the absence of revenues and operations the Independent Auditor's Report dated June 3, 2011, cites a going concern issue. The going concern statement opinion issued by the independent auditors is the result of a lack of operations and working capital.

The Company will need to raise capital which is a concern to the independent auditors because there is insufficient cash for operations for the next twelve months. The Company will have to seek other sources of capital

We established the minimum amount of \$75,000 that the Company will need to raise through debt instruments such as bank loans, or private financing so operations can start in order to generate some type of revenue. Presently, no other sources of financing has been identified and it is unknown if any other sources will be identified. There is no assurance that the Company will be able to obtain any bank loans or private financing.

DESCRIPTION OF PROPERTY

The Company uses a corporate office located at: 3217 South Orchard Street, Salt Lake City, Utah 84106. This facility is being provided to the Company free of charge. There are currently no proposed programs for renovation, improvement or development of the facility currently in use.

Risks Related to Our Business

A) RISKS RELATED TO OUR BUSINESS

WE HAVE RECEIVED AN OPINION OF GOING CONCERN FROM OUR AUDITORS. IF WE DO NOT RECEIVE ADDITIONAL FUNDING, WE WOULD HAVE TO CURTAIL OR CEASE DEVELOPMENT STAGE OPERATIONS. AN INVESTMENT IN OUR SECURITIES REPRESENTS SIGNIFICANT RISK AND YOU MAY LOSE ALL OR PART OF YOUR ENTIRE INVESTMENT.

Our independent auditors noted in their report accompanying our financial statements for the period ended May 31, 2011 that we have not earned a profit. As of May 31, 2011, we had a net loss of \$15,530, and they further stated that the uncertainty related to these conditions raised substantial doubt about our ability to continue as a going concern. At May 31, 2011, our cash on hand was \$15,570. We do not currently have sufficient capital resources to fund operations. To stay in business, we will need to raise additional capital through public or private sales of our securities, debt financing or short-term bank loans, or a combination of the foregoing.

We will need additional capital to fully implement our business, operating and development plans. However, additional funding from an alternate source or sources may not be available to us on favorable terms, if at all. To the extent that money is raised through the sale of our securities, the issuance of those securities could result in dilution to our existing security holder. If we raise money through debt financing or bank loans, we may be required to secure the financing with some or all of our business assets, which could be sold or retained by the creditor should we default in our payment obligations. If we fail to raise sufficient funds, we would have to curtail or cease operations.

IF WE DO NOT OBTAIN ADDITIONAL FINANCING, OUR BUSINESS WILL FAIL.

We will need to obtain additional financing in order to complete our business plan because we currently do not have any income. We do not have any arrangements for financing and we may not be able to find such financing if required. Obtaining additional financing would be subject to a number of factors, including investor acceptance, the availability additional financing to the Company and the ability of the Company to obtain additional financing on acceptable terms. These factors may adversely affect the timing, amount, terms, or conditions of any financing that we may obtain or make any additional financing unavailable to us. If we do not obtain additional financing our business will fail.

Through May 31, 2011, we have incurred losses of approximately \$15,530. Our currently estimated annual expenses are approximately \$75,000. To stay in business, we anticipate that we will need approximately \$75,000 to complete all necessary stages in order to market our one product in the United States annually until our sales increase. Management anticipates that losses will continue to increase from current levels because the Company expects to incur additional costs and expenses related to: marketing and promotional activities; the possible addition of new personnel. It is anticipated that said amount will be obtained by a loan from Mr. Adelt. In the event that we are unable to secure such a loan from Mr. Adelt, or some other source(s), unknown at this time, we will not be able to continue forward and our business will fail.

Additionally, it is estimated that the amount of additional costs and expenses associated with public Company reporting requirements will be approximately \$10,000 on an annual basis. It is also estimated that the amount of additional costs and expenses associated with newly applicable corporate governance requirements will be approximately \$5,000 on an annual basis.

It is anticipated that we may need to obtain a loan from Mr. Adelt to cover these additional costs and expenses. In the event that we are unable to secure such a loan from Mr. Adelt, or some other source(s), unknown at this time, we will not be able to continue forward and our business will fail.

Obtaining additional financing will be subject to a number of factors, including Adelt Design's lack of revenue. These factors may have an effect on the timing, amount, terms or conditions of additional financing and make such additional financing unavailable to us. See "Description of Business."

WE HAVE NO OPERATING HISTORY AND FACE MANY OF THE RISKS AND DIFFICULTIES FREQUENTLY ENCOUNTERED BY A YOUNG COMPANY.

Adelt Design, Inc. was incorporated in the State of Nevada on March 31, 2011. We have no operating history for investors to evaluate the potential of our business development. The Company has had no revenues or expenses prior to this time period.

THERE ARE MANY INHERENT RISKS AND DIFFICULTIES IN INTRODUCING A NEW PRODUCT TO THE MARKET PLACE.

The Company will begin to market its product in the Salt Lake City, Utah area and develop our brand name. We face, however, many of the risks and difficulties inherent in introducing a new product. These risks include, but are not limited to, the ability to:

- Increase awareness of our brand name;
- Develop an effective business plan;
- Meet customer standards;
- Implement an advertising and marketing plan;
- Attain customer loyalty;
- Maintain current strategic relationships and develop new strategic relationships;
- Respond effectively to competitive pressures;
- Continue to develop and upgrade our product; and
- Attract, retain and motivate qualified personnel.

ADELT DESIGN, INC. HAS A HISTORY OF LOSSES. FUTURE LOSSES AND NEGATIVE CASH FLOW MAY LIMIT OR DELAY ITS ABILITY TO BECOME PROFITABLE. IT IS POSSIBLE THAT ADELT DESIGN, INC. MAY NEVER ACHIEVE PROFITABILITY. AN INVESTMENT IN ADELT DESIGN, INC. SECURITIES REPRESENTS SIGNIFICANT RISK AND YOU MAY LOSE ALL OR PART OF YOUR ENTIRE INVESTMENT.

Adelt Design, Inc. has yet to establish profitable development stage operations or a history of profitable development stage operations. The Company anticipates that it will continue to incur substantial development stage operating losses for an indefinite period of time due to the significant costs associated with the development of its business.

The Company's ability to become profitable depends on its ability to generate and sustain sales while maintaining reasonable expense levels. If the Company does achieve profitability, it cannot be certain that it would be able to sustain or increase profitability on a quarterly and/or annual basis in the future. An investment in the Company's securities represents significant risk and you may lose all or part of your entire investment.

WE HAVE LESS THAN \$20,000 IN WORKING CAPITAL AVAILABLE AND WILL RECEIVE NO PROCEEDS FROM THE SALES OF THE SECURITIES IN THIS OFFERING, BUT COSTS OF THIS OFFERING ARE ANTICIPATED AT \$20,000. AN INVESTMENT IN OUR SECURITIES REPRESENTS SIGNIFICANT RISK AND YOU MAY LOSE ALL OR PART OF YOUR ENTIRE INVESTMENT.

We have less than \$20,000 in working capital available and will receive no proceeds from the sales of securities in this offering, but costs of this offering are anticipated to total \$20,000. Therefore, you should be aware that the risk that the expense of the offering will likely exhaust substantially all of your assets and, without additional sources of financing, you will have no funds with which to continue as a going concern. As a result, an investment in our securities represents significant risk and you may lose all or part of your entire investment.

WE HAVE NO OPERATING HISTORY AND EXPECT TO INCUR LOSSES FOR THE FORESEEABLE FUTURE. SHOULD WE CONTINUE TO INCUR LOSSES FOR A SIGNIFICANT AMOUNT OF TIME, THE VALUE OF YOUR INVESTMENT IN THE COMMON SHARES WILL BE AFFECTED, AND YOU COULD EVEN LOSE YOUR ENTIRE INVESTMENT.

We were incorporated in the State of Nevada on March 31, 2011. The Company has had no revenues or expenses for this time period.

Presently, we have no revenues and are considered to be in the development stage. We have operating losses from inception on March 31, 2011, to May 31, 2011. We expect to incur further losses for the foreseeable future due to additional costs and expenses related to:

- The implementation of our direct sales model by Mr. Adelt through the commencement of sales will cost at least \$75,000. We need to establish and print all of the marketing material. We have allocated \$35,000 toward marketing materials which include flyers, brochures, and website design. The Company intends to allocate these funds as soon as they are available.
- \$10,000 towards costs associated with public Company reporting requirements, and \$5,000 related to expenses associated with newly applicable corporate governance requirement
- Software and hardware updates to maintain service and maintain the Company office will cost the Company at least \$10,000. As a direct sales Company continued improvements and upgrade to our systems is required. User features and website content updates are vital to continued visitations by online users. This cost signifies the system modifications. The Company intends to allocate these funds with four month of the funds becoming available.
- Program administration and working capital expenses until such time as there are sufficient sales to cash-flow operations will cost the Company at least \$15,000. This is the necessary working capital to fund operations until such time as revenues exceed expenses. This will cover audit fees, legal and all other management expenses such as those from industry consultants and advisors, and the possible addition of new personnel. The Company intends to pay audit fees and legal and all other management fees as they become due.

IF WE DO NOT OBTAIN ADDITIONAL FINANCING, OUR BUSINESS WILL FAIL.

Adelt Design, Inc. will need to obtain additional financing in order to complete its business plan because it currently does not have any income. The Company does not have any arrangements for financing and it may not be able to find such financing if required. Obtaining additional financing would be subject to a number of factors, including investor acceptance. These factors may adversely affect the timing, amount, terms, or conditions of any financing that the Company may obtain or make any additional financing unavailable to us. If Adelt Design, Inc. does not obtain additional financing, its business will fail.

To stay in business, we anticipate that we will need approximately \$75,000 to complete all necessary stages in order to market our one product in the United States annually until our sales increase. Management anticipates that losses will continue to increase from current levels because the Company expects to incur additional costs and expenses related to: (i) marketing and promotional activities; and (ii) the possible addition of new personnel. It is anticipated that said amount will be obtained through a loan from Larry A. Adelt. In the event that we are unable to secure such a loan from Mr. Adelt, or some other source(s), which are unknown at this time, the Company will not be able to continue any and all further operations and its business will fail.

Additionally, it is estimated the additional costs and expenses associated with public Company reporting requirements will be approximately \$10,000 on an annual basis. It is also estimated that the amount of additional costs and expenses associated with newly applicable corporate governance requirements will be approximately \$5,000 on an annual basis.

It is anticipated that we may need to obtain a loan from Larry A. Adelt to cover these additional costs and expenses. In the event that we are unable to secure such a loan from Mr. Adelt, or some other source(s), which is unknown at this time, the Company will not be able to continue any and all further operations and its business will fail.

No assurance can be given that the Company will obtain access to capital markets in the future or that adequate financing to satisfy the cash requirements of implementing our business strategies will be available on acceptable terms. The inability of the Company to gain access to capital markets or obtain acceptable financing will have a material adverse effect upon the results of its operations and its financial conditions. The proceeds from the sale of the securities offered in this registration statement will go directly to the selling security holder and not to the Company. As such, this offering might negatively affect Adelt Design, Inc.'s ability to raise needed funds through a primary offering of its securities in the future.

Due to the fact we are small and do not have much capital, we must limit our marketing activities to a relatively small number of potential customers having the likelihood of purchasing our product. We intend to generate revenue through the sale of our one product. Because we will be limiting the scope of our marketing activities, we may not be able to generate timely or sufficient sales to operate profitably. If we cannot operate profitably, we may have to suspend or cease operations. The Company's financing requirements for next twelve month are the following:

- \$35,000 toward marketing materials which include fliers, brochures, direct marketing DVD's and mailing costs.
- \$10,000 Software and hardware to develop an internet site
- \$15,000 Program administration and working capital, and the possible addition of new personnel
- \$10,000 Costs and expenses associated with public Company reporting requirements
- \$5,000 expenses associated with newly applicable corporate governance requirements

ADELTS DESIGN, INC.'S CURRENT BUSINESS DEVELOPMENT STAGE OPERATIONS RELY HEAVILY UPON ITS KEY EMPLOYEE AND FOUNDER, MR. LARRY A. ADELTS.

The Company is heavily dependent upon the expertise and management of Mr. Adelt, our Chief Executive Officer, President, sole director (Principle Executive Officer) and our future performance will depend upon his continued services. The loss of the services of Mr. Adelt's services could seriously interrupt the Company's business operations, and could have a very negative impact on its ability to fulfill its business plan and to carry out its existing development stage operations. The Company currently does not maintain key man life insurance on this individual. There can be no assurance that a suitable replacement could be found for him upon retirement, resignation, inability to act on our behalf, or death. The Company has no plans of entering into an employment agreement with Mr. Adelt.

MR. LARRY ADELTS CURRENTLY DEVOTES TEN HOURS A WEEK TO THE COMPANY BUT WILL DEVOTE 40 HOURS A WEEK OR MORE ONCE THE COMPANY RAISES \$75,000 IN CAPITAL. FAILURE OF THE COMPANY TO RAISE \$75,000 IN CAPITAL TO HAVE MR. ADELTS DEVOTE 40 HOURS A WEEK TO THE COMPANY REPRESENTS A SIGNIFICANT RISK AND YOU MAY LOSE ALL OR PART OF YOUR ENTIRE INVESTMENT.

Larry Adelt currently devotes approximately 10 hours per week to the affairs of the Company. Once the Company raises \$75,000 in capital, Mr. Adelt will devote 40 hours per week to the Company or more, and draw a salary of \$2,000 per month. Until such time, however, Mr. Adelt's inability to devote more than 40 hours a week to the Company represents a significant risk to the Company and you may lose all or part of your entire investment. Additionally, failure of the Company to raise \$75,000 in capital represents a significant risk and you may lose all or part of your entire investment.

ADELTS DESIGN, INC.'S FUTURE GROWTH MAY REQUIRE RECRUITMENT OF QUALIFIED EMPLOYEES.

In the event of our future growth in administration, marketing, and customer support functions, the Company may have to increase the depth and experience of its management team by adding new members. Adelt Design, Inc.'s future success will depend to a large degree upon the active participation of its key officers and employees. There is no assurance that the Company will be able to employ qualified persons on acceptable terms. Lack of qualified employees may adversely affect our business development.

(B) RISKS RELATED TO THE INDUSTRY

WE MAY NOT BE ABLE TO BUILD OUR BRAND AWARENESS.

Development and awareness of our brand Adelt Design, Inc. will depend largely upon our success in creating a customer base and potential referral sources. In order to attract and retain customers and to promote and maintain its brand in response to competitive pressures, management plans to gradually increase the Company's marketing and advertising budgets. If we are unable to economically promote or maintain our brand, then our business, results of operations and financial condition could be severely harmed. The Company presently has working capital of \$2,470.

WE MAY INCUR SIGNIFICANT COSTS TO BE A PUBLIC COMPANY TO ENSURE COMPLIANCE WITH U.S. CORPORATE GOVERNANCE AND ACCOUNTING REQUIREMENTS AND WE MAY NOT BE ABLE TO ABSORB SUCH COSTS.

We may incur significant costs associated with our public Company reporting requirements, costs associated with newly applicable corporate governance requirements, including requirements under the Sarbanes-Oxley Act of 2002 and other rules implemented by the SEC. We expect all of these applicable rules and regulations to significantly increase our legal and financial compliance costs and to make some activities more time consuming and costly. We also expect that these applicable rules and regulations may make it more difficult and more expensive for us to obtain director and officer liability insurance and we may be required to accept reduced policy limits and coverage or incur substantially higher costs to obtain the same or similar coverage. As a result, it may be more difficult for us to attract and retain qualified individuals to serve on our board of directors or as executive officers. We are currently evaluating and monitoring developments with respect to these newly applicable rules, and we cannot predict or estimate the amount of additional costs we may incur or the timing of such costs. In addition, we may not be able to absorb these costs of being a public Company, which will negatively affect our business operations.

It is estimated that the amount of additional costs and expenses associated with public Company reporting requirements will be approximately \$10,000. It is also estimated that the amount of additional costs and expenses associated with newly applicable corporate governance requirements will be approximately \$5,000.

It is anticipated that we may need to obtain a loan from Mr. Adelt to cover these additional costs and expenses. In the event that we are unable to secure such a loan from Mr. Adelt, or some other source(s), unknown at this time, we will not be able to continue forward and our business will fail.

THE LACK OF PUBLIC COMPANY EXPERIENCE OF OUR MANAGEMENT TEAM COULD ADVERSELY IMPACT OUR ABILITY TO COMPLY WITH THE REPORTING REQUIREMENTS OF U.S. SECURITIES LAWS.

The Company's management team has no public Company experience, which could impair its ability to comply with legal and regulatory requirements such as those imposed by Sarbanes-Oxley Act of 2002. The Company's senior management has never had sole responsibility for managing a publicly traded Company. Such responsibilities include complying with federal securities laws and making required disclosures on a timely basis. The Company's senior management may not be able to implement programs and policies in an effective and timely manner that adequately respond to such increased legal, regulatory compliance and reporting requirements, including the establishing and maintaining internal controls over financial reporting. Any such deficiencies, weaknesses or lack of compliance could have a materially adverse effect on the Company's ability to comply with the reporting requirements of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), which is necessary to maintain its public Company status. If we were to fail to fulfill those obligations, our ability to continue as a U.S. public Company would be in jeopardy in which event you could lose your entire investment in our Company.

ADELT DESIGN, INC.'S DEVELOPMENT STAGE OPERATING RESULTS MAY FLUCTUATE DUE TO FACTORS WHICH ARE NOT WITHIN ITS CONTROL.

Adelt Design, Inc.'s development stage operating results are expected to fluctuate in the future based on a number of factors, many of which are not in its control. The Company's development stage operating expenses primarily include marketing and general administrative expenses that are relatively fixed in the short-term. If our revenues are lower than we expect because demand for our service diminishes, or if we experience an increase in defaults among approved advertising applicants or for any other reasons we may not be able to quickly return to acceptable revenue levels.

Because of the unique nature of our business and the fact that there are no comparable past business models to rely on, future factors that may adversely affect our business are difficult to forecast. Any shortfall in Adelt Design, Inc.'s revenues would have a direct impact on its business. In addition, fluctuations in the Company's quarterly results could adversely affect the market price of its common stock in a manner unrelated to its long-term operating performance.

(C) RISKS RELATED TO THE OWNERSHIP OF OUR SECURITIES AND RISKS RELATED TO THIS OFFERING.

WE MAY NEVER PAY ANY DIVIDENDS TO SHAREHOLDERS.

The Company has never declared or paid any cash dividends or distributions on its capital stock. We currently intend to retain our future earnings, if any, to support operations and to finance expansion and therefore we do not anticipate paying any cash dividends on our common stock in the foreseeable future.

The declaration, payment and amount of any future dividends will be made at the discretion of the board of directors, and will depend upon, among other things, the results of our operations, cash flows and financial condition, operating and capital requirements, and other factors as the board of directors considers relevant. There is no assurance that future dividends will be paid, and, if dividends are paid, there is no assurance with respect to the amount of any such dividend.

OUR CONTROLLING SECURITY HOLDER MAY TAKE ACTIONS THAT CONFLICT WITH YOUR INTERESTS.

Mr. Adelt beneficially owns approximately 100% of the Company's capital stock with voting rights. In this case, Mr. Adelt will be able to exercise control over all matters requiring stockholder approval, including the election of directors, amendment of the Company's certificate of incorporation and approval of significant corporate transactions, and he will have significant control over its management and policies. The directors elected by our controlling security holder will be able to significantly influence decisions affecting our capital structure. This control may have the effect of delaying or preventing changes in control or changes in management, or limiting the ability of our other security holders to approve transactions that they may deem to be in their best interest. For example, our controlling security holder will be able to control the sale or other disposition of our operating businesses and subsidiaries to another entity.

THE OFFERING PRICE OF THE COMMON STOCK WAS ARBITRARILY DETERMINED, AND THEREFORE SHOULD NOT BE USED AS AN INDICATOR OF THE FUTURE MARKET PRICE OF THE SECURITIES. THEREFORE, THE OFFERING PRICE BEARS NO RELATIONSHIP TO OUR ACTUAL VALUE, AND MAY MAKE OUR SHARES DIFFICULT TO SELL.

Since our shares are not listed or quoted on any exchange or quotation system, the offering price of \$0.001 per share for the shares of common stock was arbitrarily determined. The facts considered in determining the offering price were our financial condition and prospects, our limited operating history and the general condition of the securities market. The offering price bears no relationship to the book value; assets or earnings of our Company or any other recognized criteria of value. The offering price should not be regarded as an indicator of the future market price of the securities.

YOU MAY EXPERIENCE DILUTION OF YOUR OWNERSHIP INTEREST BECAUSE OF THE FUTURE ISSUANCE OF ADDITIONAL SHARES OF OUR COMMON STOCK AND OUR PREFERRED STOCK.

In the future, we may issue our authorized but previously unissued equity securities, resulting in the dilution of the ownership interests of our present stockholders. We are currently authorized to issue an aggregate of 100,000,000 shares of capital stock consisting of 90,000,000 shares of common stock, par value \$0.001 per share, and 10,000,000 shares of preferred stock, par value \$0.001 per share.

We may also issue additional shares of our common stock or other securities that are convertible into or exercisable for common stock in connection with hiring or retaining employees or consultants, future acquisitions, future sales of our securities for capital raising purposes, or for other business purposes. The future issuance of any such additional shares of our common stock or other securities may create downward pressure on the trading price of our common stock. There can be no assurance that we will not be required to issue additional shares, warrants or other convertible securities in the future in conjunction with hiring or retaining employees or consultants, future acquisitions, future sales of our securities for capital raising purposes or for other business purposes.

OUR COMMON STOCK IS CONSIDERED PENNY STOCKS, WHICH MAY BE SUBJECT TO RESTRICTIONS ON MARKETABILITY, SO YOU MAY NOT BE ABLE TO SELL YOUR SHARES.

If our common stock becomes tradable in the secondary market, we will be subject to the penny stock rules adopted by the SEC that require brokers to provide extensive disclosure to their customers prior to executing trades in penny stocks. These disclosure requirements may cause a reduction in the trading activity of our common stock, which in all likelihood would make it difficult for our shareholders to sell their securities.

Penny stocks generally are equity securities with a price of less than \$5.00 (other than securities registered on certain national securities exchanges or quoted on the NASDAQ system). Penny stock rules require a broker-dealer, prior to a transaction in a penny stock not otherwise exempt from the rules, to deliver a standardized risk disclosure document that provides information about penny stocks and the risks in the penny stock market. The broker-dealer also must provide the customer with current bid and offer quotations for the penny stock, the compensation of the broker-dealer and its salesperson in the transaction, and monthly account statements showing the market value of each penny stock held in the customer's account. The broker-dealer must also make a special written determination that the penny stock is a suitable investment for the purchaser and receive the purchaser's written agreement to the transaction. These requirements may have the effect of reducing the level of trading activity, if any, in the secondary market for a security that becomes subject to the penny stock rules. The additional burdens imposed upon broker-dealers by such requirements may discourage broker-dealers from effecting transactions in our securities, which could severely limit the market price and liquidity of our securities. These requirements may restrict the ability of broker-dealers to sell our common stock and may affect your ability to resell our common stock.

THERE IS NO ASSURANCE OF A PUBLIC MARKET OR THAT OUR COMMON STOCK WILL EVER TRADE ON A RECOGNIZED EXCHANGE. THEREFORE, YOU MAY BE UNABLE TO LIQUIDATE YOUR INVESTMENT IN OUR STOCK.

There is no established public trading market for our common stock. Our shares have not been listed or quoted on any exchange or quotation system. There can be no assurance that a market maker will agree to file the necessary documents with FINRA, which operates the OTCBB, nor can there be any assurance that such an application for quotation will be approved or that a regular trading market will develop or that if developed, will be sustained. In the absence of a trading market, an investor may be unable to liquidate their investment.

SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

The information contained in this report, including in the documents incorporated by reference into this report, includes some statement that are not purely historical and that are "forward-looking statements." Such forward-looking statements include, but are not limited to, statements regarding our and their management's expectations, hopes, beliefs, intentions or strategies regarding the future, including our financial condition, results of operations, and the expected impact of the Share Exchange on the parties' individual and combined financial performance. In addition, any statements that refer to projections, forecasts or other characterizations of future events or circumstances, including any underlying assumptions, are forward-looking statements. The words "anticipates," "believes," "continue," "could," "estimates," "expects," "intends," "may," "might," "plans," "possible," "potential," "predicts," "projects," "seeks," "should," "will," "would" and similar expressions, or the negatives of such terms, may identify forward-looking statements, but the absence of these words does not mean that a statement is not forward-looking.

The forward-looking statements contained in this report are based on current expectations and beliefs concerning future developments and the potential effects on the parties and the transaction. There can be no assurance that future developments actually affecting us will be those anticipated. These that may cause actual results or performance to be materially different from those expressed or implied by these forward-looking statements, including the following forward-looking statements involve a number of risks, uncertainties (some of which are beyond the parties' control) and/or other assumptions.

USE OF PROCEEDS

The Company will not receive any proceeds from the sale of the shares by the selling security holder. All proceeds from the sale of the shares offered hereby will be for the account of the selling security holder, as described below in the sections entitled "Selling Security Holder" and "Plan of Distribution."

The Company is registering 8,000,000 shares for gross proceeds of \$8,000 from the sale of the selling security holder's common stock under the investment agreement. All of the proceeds from the sale of the shares of common stock offered herein will be received by the selling security holder.

With the exception of any brokerage fees and commission which are the obligation of the selling security holder, we are responsible for the fees, costs and expenses of this offering which are estimated to be \$20,000, inclusive of our legal and accounting fees, printing costs, filings and other miscellaneous fees and expenses of which the Company has paid \$2,430 as of May 31, 2011.

DETERMINATION OF OFFERING PRICE

Since our common stock is not listed or quoted on any exchange or quotation system, the offering price of the shares of common stock was arbitrarily determined. The offering price of the shares of our common stock has been determined arbitrarily by us and does not necessarily bear any relationship to our book value, assets, past developmental stage operating results, financial condition or any other established criteria of value. The facts considered in determining the offering price were our financial condition and prospects, no operating history and the general condition of the securities market.

Although our common stock is not listed on a public exchange, we will be filing to obtain a listing on the OTCBB concurrently with the filing of this prospectus. In order to be quoted on the OTCBB, a market maker must file an application on our behalf in order to make a market for our common stock. There can be no assurance that a market maker will agree to file the necessary documents with FINRA, which operates the OTC Bulletin Board, nor can there be any assurance that such an application for quotation will be approved.

In addition, there is no assurance that our common stock will trade at market prices in excess of the initial offering price as prices for the common stock in any public market which may develop will be determined in the marketplace and may be influenced by many factors, including the depth and liquidity.

DILUTION

The common stock to be sold by the selling security holder is common stock that is currently issued and outstanding. Accordingly, there will be no dilution to our existing security holder. Upon the successful completion of this offering, the number of shares will total 18,000,000 common shares outstanding.

SELLING SECURITY HOLDER

On May 15, 2011, the Company issued 18,000,000 founder's shares at the par value of \$0.001 in exchange for proceeds of \$18,000. The common shares being offered for resale by the selling security holder consist of the 8,000,000 shares of our common stock held by one shareholder (founder).

The following table sets forth the name of the selling security holder, the number of shares of common stock beneficially owned by the selling stockholder as of May 31, 2011 and the number of shares of common stock being offered by the selling stockholder. The shares being offered hereby are being registered to permit public secondary trading, and the selling stockholders may offer all or part of the shares for resale from time to time. However, the selling stockholder is under no obligation to sell all or any portion of such shares nor is the selling stockholder obligated to sell any shares immediately upon effectiveness of this prospectus. All information with respect to share ownership has been furnished by the selling stockholders.

	Name	Shares beneficially owned prior to Offering	Shares to be Offered	Shares Beneficially Owned after Offering if all 8,000,000 sold	Percent Beneficially Owned after Offering if all 8,000,000 sold
1	Larry A. Adelt	18,000,000	8,000,000	10,000,000	55%

The selling shareholder Larry A. Adelt is not a broker-dealer or an affiliate of a broker-dealer.

- (1) Larry A. Adelt is the founder and officer and director of the Company. He presently owns 18,000,000 shares of the Company stock, which he obtained on May 31, 2011. Mr. Adelt is the Company's sole shareholder.

PLAN OF DISTRIBUTION

We are registering 8,000,000 shares of our common stock for resale by the selling security holder identified in the section above entitled "Selling Security Holder." We will receive none of the proceeds from the sale of these shares by the selling security holder.

The selling security holder may sell some of all of their common stock in one or more transactions, including block transactions:

- * On such public markets or exchanges as the common stock may from time to time be trading;
- * In privately negotiated transactions;
- * Through the writing of options on the common stock;
- * Settlement of short sales; or,
- * In any combination of these methods of distribution.

The selling security holder has set an offering price for these securities of \$0.001 per share, with a minimum number of shares to be offered per investor of 100 and an offering period of twenty nine days from the date of this prospectus.

The shares may also be sold in compliance with the Securities and Exchange Commission's Rule 144. In the event of the transfer by the selling security holder of shares to any pledgee, donee, or other transferee, we will amend this prospectus and the registration statement of which this prospectus forms a part by the filing of a post-effective registration statement in order to name the pledgee, donee, or other transferee in place of the selling security holder who have transferred his shares.

The selling security holder may also sell shares directly to market makers acting as principals or brokers or dealers, who may act as agent or acquire the common stock as a principal. Any broker or dealer participating as agent in such transactions may receive a commission from the selling security holder or, if they act as agent for the purchaser of such common stock, a commission from the purchaser. The selling security holder will likely pay the usual and customary brokerage fees for such services. Brokers or dealers may agree with the selling security holder to sell a specified number of shares at a stipulated price of \$0.001 per share and, to the extent such broker or dealer is unable to do so acting as agent for the selling security holder, to purchase, as principal, any unsold shares at the price required to fulfill the respective broker's or dealer's commitment to the selling security holder. Brokers or dealers who acquire shares as principals may thereafter resell such shares from time to time in transactions in a market or on an exchange, in negotiated transactions or otherwise, at market prices of \$0.001, and in connection with such re-sales may pay or receive commissions to or from the purchasers of such shares. These transactions may involve cross and block transactions that may involve sales to and through other brokers or dealers. We can provide no assurance that all or any of the common stock offered will be sold by the selling security holder.

If, after the date of this prospectus, the selling security holder enters into an agreement to sell their shares to a broker-dealer as principal and the broker-dealer is acting as an underwriter, we will need to file a post-effective amendment to the registration statement of which this prospectus is a part. We will need to identify the broker-dealer, provide required information on the plan of distribution, and revise the disclosures in that amendment, and file the agreement as an exhibit to the registration statement. Also, the broker-dealer would have to seek and obtain clearance of the underwriting compensation and arrangements from the NASD Corporate Finance Department.

The selling security holder listed in this prospectus is the underwriter within the meaning of section 2(11) of the Securities Act of 1933, as amended, in connection with the sales and distributions contemplated under this prospectus, and may have civil liability under Sections 11 and 12 of the Securities Act for any omissions or misstatements in this prospectus and the registration statement of which it is a part and any broker-dealers or agents that are involved in selling the shares may be deemed to be an "underwriter" within the meaning of section 2(11) of the Securities Act of 1933, as amended, in connection with the sales and distributions contemplated under this prospectus, and may have civil liability under Sections 11 and 12 of the Securities Act for any omissions or misstatements in this prospectus and the registration statement of which it is a part. Additionally, any profits, which our selling security holder may receive, would be deemed to be underwriting compensation under the Securities Act. Because the selling security holder is the underwriter under Section 2(11) of the Securities Act, the selling security holder will be subject to the prospectus delivery requirements of the Securities Act.

We are bearing all costs relating to the registration of the common stock, which are estimated at \$20,000 inclusive of our legal and accounting fees, printing costs, filings and other miscellaneous fees and expenses of which the Company has incurred \$15,530 as of May 31, 2011. The selling security holder, however, will pay any commissions or other fees payable to brokers or dealers in connection with any sale of the common stock.

In order to comply with the applicable securities laws of certain states, the securities will be offered or sold in those only if they have been registered or qualified for sale; an exemption from such registration or if qualification requirement is available and with which Adelt Design, Inc. has complied.

In addition and without limiting the foregoing, the Company will be subject to applicable provisions, rules and regulations under the Exchange Act with regard to security transactions during the period of time when this Registration Statement is effective.

We are paying the expenses of the offering because we seek to: (i) become a reporting company with the Commission under the Securities Exchange Act of 1934 (the "1934 Act"); and (ii) enable our common stock to be traded on the OTC Bulletin Board. We believe that the registration of the resale of shares on behalf of the existing security holder may facilitate the development of a public market in our common stock if our common stock is approved for trading on the OTC Bulletin Board.

We consider that the development of a public market for our common stock will make an investment in our common stock more attractive to future investors. We will at some point, in the near future, need to raise additional capital through private placement offerings. We believe that obtaining reporting company status under the 1934 Act and trading on the OTC Bulletin Board should increase our ability to raise these

additional funds from investors.

There is no assurance that we will find a market maker and no assurance that our shares will be approved for trading on the OTC Bulletin.

The selling security holder and any broker-dealers or agents must comply with the requirements of the Securities Act and the Securities Exchange Act in the offer and sale of the common stock. In particular, during such times as the selling security holder is engaged in a distribution of the common stock, and therefore be considered to be an underwriter, he must comply with applicable law and may, among other things may be deemed to be engaged in a distribution of the common stock, and therefore be considered to be an underwriter, he must comply with applicable law and may, among other things:

- * Not engage in any stabilization activities in connection with our common stock;
- * Furnish each broker or dealer through which common stock may be offered, such copies of this prospectus, as amended from time to time, as may be required by such broker or dealer; and,
- * Not bid for or purchase any of our securities or attempt to induce any person to purchase any of our securities other than as permitted under the Securities Exchange Act.

MARKET FOR COMMON EQUITY AND RELATED SHAREHOLDER MATTERS

Our securities are not listed on any exchange or quotation service. We are not required to comply with the timely disclosure policies of any exchange or quotation service. The requirements to which we would be subject if our securities were so listed typically include the timely disclosure of a material change or fact with respect to our affairs and the making of required filings. Although we are not required to deliver an annual report to security holders, the Company intends to provide an annual report to our security holders, which will include audited financial statements.

When we become a reporting company with the Securities and Exchange Commission, the public may read and copy any materials filed with the Securities and Exchange Commission at the Security and Exchange Commission's Public Reference Room at 100 F Street N.E., Washington, D.C. 20549. The public may also obtain information on the operation of the Public Reference Room by calling the Securities and Exchange Commission at 1-800-SEC-0330. The Securities and Exchange Commission maintains an Internet site that contains reports, proxy and information statements, and other information regarding issuers that file electronically with the Securities and Exchange Commission. The address of that site is www.sec.gov.

There are no outstanding options or warrants to purchase, or securities convertible into, shares of our common stock.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULT OF OPERATIONS

The following plan of operation provides information which management believes is relevant to an assessment and understanding of our results of operations and financial condition. The discussion should be read along with our financial statements and notes thereto. This section includes a number of forward-looking statements that reflect our current views with respect to future events and financial performance. Forward-looking statements are often identified by words like: "believe," "expect," "estimate," "anticipate," "intend," "project," and similar expressions, or words which, by their nature, refer to future events. You should not place undue certainty on these forward-looking statements and/or the aforementioned identifying words. These forward-looking statements are subject to certain risks and uncertainties that could cause actual results to differ materially from our predictions.

OVERVIEW

Adelt Design, Inc. was formed in the state of Nevada on March 31, 2011 to establish sales of carpet binding art to the general public. The Company expects to generate its corporate revenue from the sale of its carpet binding art.

The Company has adopted a fiscal year end of May 31st.

Adelt Design, Inc. is presently developing a plan to market its carpet binding art to the general public. Adelt is a development stage company with a limited history of development stage operations.

Adelt Design, Inc. was founded in the State of Nevada on March 31, 2011. The Company plans to market the carpet binding art through a combination of direct sales, referrals and networking. To date the Company has not generated any sales. We expect to establish an internet website in August of 2011, where customers may purchase its carpet binding art.

To commence active business operations, the Company will need to engage in a number of planning stage and preliminary activities. We will commence activities that include finishing our internet website for our carpet binding art, preparing marketing materials and direct mail. We will undertake and work to finish these activities upon completion of this registration statement.

We have started some of the activities, by developing the art picture and carpet binding and creating the initial marketing material but the marketing completion cannot occur without the raising of additional funds in the amount of \$75,000. From March 31, 2011 (inception) to date, we have spent a substantial amount of time in developing the Company's carpet binding art such as, among other things, which dyes to use, which black or colored, which tools to use, and which wools to use. Additionally, the Company has spent a substantial amount of time

developing it marketing material, strategic planning, budgeting, and preliminary work.

We have determined what we believe the price of our product should be along with the relative cost to have the product manufactured, packaged and shipped to customers. The Company has estimated the selling price of our product, which includes manufacturing, packaging, and Company profit, to range from \$3,000 to \$100,000 based on: (1) the complexity of the carpet binding art; (2) the size of the carpet binding art; (3) the dyes used, and the amounts used, in the carpet binding art; and (4) the amount of black or colored used in the carpet binding art. If these projected prices are incorrect, it could result in an operating loss for us.

While budgetary manufacturing, packaging, shipping and marketing costs have been established for our product, no definitive work has commenced in development of these products and activities; therefore, it is possible that these prices could be incorrect. If, after development, a different price is deemed necessary, it could result in an operating loss for us. We have not devoted much time to raising capital other than the investments from Mr. Adelt. Furthermore, Adelt Design, Inc. has not commenced its major operations of manufacturing, packaging and shipping its art picture and carpet binding to any customer. Adelt Design, Inc. is considered a development stage company because it has not commenced its major operations. In addition, the Company has not achieved any revenue in connection with its business to date.

Over the next twelve months, Adelt Design, Inc. plans to build out its reputation, carpet binding art, and begin sales to the general public. Presently, the Company has not sold any art pictures and carpet bindings.

Management feels the Company's continuation as a going concern depends upon its ability to obtain additional sources of capital and financing. Specifically, management intends to raise additional permanent capital through debt instruments such as bank loans and/or private financing. The goal of this effort is to provide working capital for the next year. Our twelve month operating plan is dependent on raising additional permanent capital through debt instruments such as bank loans, or private financing in the amount of \$75,000. Presently, we do not have any existing sources or plans for financing.

Based on our current operating plan, we do not expect to generate revenue that is sufficient to cover our expenses for the next six months, and we will need to obtain additional financing to operate our business for the next six months. Our "burn rate" is approximately \$2,500 per month. Most of our expenses are anticipated to be legal, accounting, transfer agent, and other costs associated with being a public Company. Since we intend to utilize our officers and directors, who currently are part time and whose salaries are being accrued, to sell our product, our marketing costs should be minimal. Additional financing, whether through public or private equity or debt financing, arrangements with the security holder or other sources to fund operations, may not be available, or if available, may be on terms unacceptable to us. Our ability to maintain sufficient liquidity is dependent on our ability to raise additional capital.

If we issue additional equity securities to raise funds, the ownership percentage of our existing security holder would be reduced. New investors may demand rights, preferences or privileges senior to those of existing holders of our common stock. Debt incurred by us would be senior to equity in the ability of debt holders to make claims on our assets. The terms of any debt issued could impose restrictions on our operations. If adequate funds are not available to satisfy either short or long-term capital requirements, our operations and liquidity could be materially adversely affected and we could be forced to cease operations.

If we are successful in our efforts to raise the \$75,000, our twelve month operating plan shall be as follows. Additionally, we would not move into our operating phase until we have established our internet based services, even if successful in efforts to raise the \$75,000 of capital:

- The implementation of our direct sales model through Larry Adelt through the commencement of sales will cost at least \$75,000. We need to establish and print all of the marketing material. We have allocated \$35,000 toward marketing materials which include flyers, brochures, direct marketing DVD's and mailing costs. The Company intends to allocate these funds as soon as they are available.
- \$10,000 towards costs associated with public Company reporting requirements, and \$5,000 related to expenses associated with newly applicable corporate governance requirement
- Software and hardware updates to maintain service and maintain the Company office will cost the Company at least \$10,000. As a direct sales Company continued improvements and upgrade to our systems is required. User features and website content updates are vital to continued visitations by online users. This cost signifies the system modifications. The Company intends to allocate these funds with four month of the funds becoming available.
- Program administration and working capital expenses until such time as there are sufficient sales to cash-flow operations will cost the Company at least \$15,000. This is the necessary working capital to fund operations until such time as revenues exceed expenses.

INITIAL SALES STRATEGY

We have established a two-prong sales approach; our approach utilizes direct sales through Larry A. Adelt. Our direct sales will be conducted by Mr. Adelt, who will market the art picture and carpet bindings locally in the Salt Lake City, Utah area to retail customers. His current marketing strategy consists of various Point of Sale material to include advertising posters, flyers and magnetic strips with the Company name and its product developed by Larry Adelt in the past several months. We also intend to derive sales from our internet website which is currently under development at: <http://www.Adeltdesign.com>. We need further funding to complete the Company's internet website.

We intend to derive income from these sales and our goal is establish brand recognition. Over the next twelve months, Adelt Design, Inc. plans to build out and establish its reputation and network of clients and advisors in the carpet binding art business for sale to the general public.

SUBSEQUENT SALES STRATEGY

Adelt Design, Inc. will market its carpet binding art to the general public through a combination of direct sales, referrals and sales through its internet website. The Company is presently developing its marketing program to sell its art pictures and carpet bindings to the general public. The Company is not offering its products to anyone at this time. Adelt Design, Inc. is considered a development stage company because it has not commenced its major operations. In addition, the Company has not achieved any revenue in connection with its business to date. As a result, we are a startup company. This means that we have no operating history or revenue, and are at a competitive disadvantage.

Total operating expenses for the period of March 31, 2011 (inception) to May 31, 2011 were \$15,530. The costs primarily consisted of legal, accounting and other professional fees.

LIQUIDITY AND CAPITAL RESOURCES

We believe that our existing sources of liquidity will not be sufficient to fund our operations, anticipated capital expenditures, working capital and other financing requirements for at least the next twelve months. In the event the Company is unable to achieve profitable operations in the near term, it may require additional equity and/or debt financing, or reduce expenses, including officer's compensation, to reduce such losses. However, we cannot assure that such financing will be available to us on favorable terms, or at all. We will continue to monitor our expenditures and cash flow position. We are presently debt free, but at some time in the future we may need to obtain additional financing to complete our business plan. There is no assurance that we will be able to obtain such financing if needed and the failure to do so could negatively impact the viability of our Company to continue with this business and the business may fail.

The following table summarizes total assets, accumulated deficit, stockholder's equity (deficit) and working capital at May 31, 2011.

	<u>May 31, 2011</u>
Total Assets	\$ 15,570
Accumulated Deficit	\$ (15,530)
Stockholders' Equity	\$ 2,470
Working Capital	\$ 2,470

Since our inception on March 31, 2011, we have incurred a loss of (\$15,530). Our cash and cash equivalent balances were \$15,570 at May 31, 2011. At May 31, 2011 we had an accumulated deficit of (\$15,530), and total current liabilities were \$13,100.

For the period from March 31, 2011 (inception) to May 31, 2011, net cash used in operating activities was \$2,430 and proceeds from the sale of common stock totaled \$18,000.

SATISFACTION OF OUR CASH OBLIGATION FOR THE NEXT TWELVE MONTHS

We will have additional capital requirements during the fiscal year ending May 31, 2012. We do not expect to be able to satisfy our cash requirements through our product sales, and therefore we will attempt to raise additional capital through the sale of our common stock and debt financing activities.

We cannot assure that we will have sufficient capital to finance our growth and business operations or that such capital will be available on terms that are favorable to us or at all. We are currently incurring operating deficits that are expected to continue for the foreseeable future.

Based on our current operating plan, we do not expect to generate revenue that is sufficient to cover our expenses for at least the next twelve months. In addition, we do not have sufficient cash and cash equivalents to execute our operations for at least the next twelve months. We will need to obtain additional financing, in the amount of \$75,000, to conduct our day-to-day operations, and to fully execute our business plan. We will raise the capital necessary to fund our business through a subsequent offering of equity securities. Additional financing, whether through public or private equity or debt financing, arrangements with security holders or other sources to fund operations, may not be available, or if available, may be on terms unacceptable to us.

Management feels the Company's continuation as a going concern depends upon its ability to obtain additional sources of capital and financing. Specifically, management intends to raise additional permanent capital through debt instruments such as bank loans, or private financing. The goal of this effort is to provide working capital for the next year. Our twelve month operating plan is dependent on raising additional permanent capital through debt instruments such as bank loans, or private financing in the amount of \$75,000. Presently we do not have any existing sources or plans for financing.

If we are successful in our efforts to raise the \$75,000, our twelve month operating plan shall be as follows (we would not move into our operations phase until we have established our internet website even if we are successful in our efforts to raise the \$75,000 in capital):

- The implementation of our direct sales model through Mr. Adelt through the commencement of sales will cost at least \$75,000. We need to establish and print all of the marketing material. We have allocated \$35,000 toward marketing materials which include flyers, brochures, direct marketing DVD's and mailing costs. The Company intends to allocate these funds as soon as they are available.
- \$10,000 towards costs associated with public Company reporting requirements, and \$5,000 related to expenses associated with newly applicable corporate governance requirement.
- Software and hardware to develop an internet site will cost the Company at least \$10,000. As an art Company continued improvements and upgrades will be required. User features and website content updates are vital to continued visitations by online users. This cost signifies the system creation. The Company intends to allocate these funds within four months of the funds becoming available.
- Program administration and working capital expenses until such time as there are sufficient sales to cash-flow operations will cost the Company at least \$15,000. This is the necessary working capital to fund operations until such time as revenues exceed expenses. This will cover audit fees, legal fees associated with the offering and all other management expenses such as those from industry consultants and advisors. The Company intends to pay its legal and accounting and all other management fees as they become due.

All manufacturing costs associated with the Company's product will come from additional funding from Mr. Adelt and/or the selling of the product. Additionally, all funds related to the offering will be provided by Mr. Adelt.

Our ability to maintain sufficient liquidity is dependent on our ability to raise additional capital. If we issue additional equity securities to raise funds, the ownership percentage of our existing security holders would be reduced. New investors may demand rights, preferences or privileges senior to those of existing holders of our common stock. Debt incurred by us would be senior to equity in the ability of debt holders to make claims on our assets. The terms of any debt issued could impose restrictions on our operations. If adequate funds are not available to satisfy either short or long-term capital requirements, our operations and liquidity could be materially adversely affected and we could be forced to cease operations.

EXPECTED PURCHASE OR SALE OF SIGNIFICANT EQUIPMENT

We do not anticipate the purchase or sale of any significant equipment as such items are not required by us at this time or in the next twelve months.

We are paying the expenses of the offering because we seek to (i) become a reporting company with the Commission under the Securities Exchange Act of 1934 (the "1934 Act"); and (ii) enable our common stock to be traded on the OTC Bulletin Board. We believe that the registration of the resale of shares on behalf of our existing security holders may facilitate the development of a public market in our common stock if our common stock is approved for trading on the OTC Bulletin Board.

INFLATION

The rate of inflation has had little impact on the Company's results of operations and is not expected to have a significant impact on the continuing operations.

OFF-BALANCE SHEET ARRANGEMENTS

We do not have any off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that is material to investors.

CRITICAL ACCOUNTING POLICIES

We have identified the policies outlined below as critical to our business operations and an understanding of our results of operations. The list is not intended to be a comprehensive list of all of our accounting policies. In many cases, the accounting treatment of a particular transaction is specifically dictated by accounting principles generally accepted in the United States, with no need for management's judgment in their application. The impact and any associated risks related to these policies on our business operations is discussed throughout management's Discussion and Analysis or Plan of Operation where such policies affect our reported and expected financial results. Note that our preparation of the financial statements requires us to make estimates and assumptions that affect the reported amount of assets and liabilities, disclosure of contingent assets and liabilities at the date of our financial statements, and the reported amounts of revenue and expenses during the reporting period. There can be no assurance that actual results will not differ from those estimates.

REVENUE RECOGNITION

For revenue from product sales, the Company recognizes revenue using four basic criteria that must be met before revenue can be recognized: (1) persuasive evidence of an arrangement exists; (2) delivery has occurred; (3) the selling price is fixed and determinable; and (4) collectability is reasonably assured. Determination of criteria (3) and (4) are based on management's judgment regarding the fixed nature of the selling prices of the products delivered and the collectability of those amounts. Provisions for discounts and rebates to customers, estimated returns and allowances, and other adjustments are provided for in the same period the related sales are recorded. The Company defers any revenue for which the product has not been delivered or is subject to refund until such time that the Company and the customer jointly determine that the product has been delivered or no refund will be required.

The Company has not generated revenues to date.

STOCK-BASED COMPENSATION

The Company adopted FASB guidance on stock based compensation upon inception on March 31, 2011. Under FASB ASC 718-10-30-2, all share-based payments to employees, including grants of employee stock options, to be recognized in the income statement based on their fair values. Pro forma disclosure is no longer an alternative. The Company did not issue any stock and stock options for services and compensation for the period from March 31, 2011 (Inception) through May 31, 2011.

RECENT ACCOUNTING PRONOUNCEMENTS

In June 2009, the Financial Accounting Standards Board ("FASB") issued the FASB Accounting Standards Codification (the "ASC"). The ASC has become the single source of non-governmental accounting principles generally accepted in the United States ("GAAP") recognized by the FASB in the preparation of financial statements. The ASC does not supersede the rules or regulations of the Securities and Exchange Commission ("SEC"), therefore, the rules and interpretive releases of the SEC continue to be additional sources of GAAP for the Company. The Company adopted the ASC upon inception at March 31, 2011. The ASC does not change GAAP and did not have an effect on the Company's financial position, results of operations or cash flows.

In February 2010, the FASB issued ASU No. 2010-09 regarding subsequent events and amendments to certain recognition and disclosure requirements. Under this ASU, a public company that is a SEC filer, as defined, is not required to disclose the date through which subsequent events have been evaluated. This ASU is effective upon the issuance of this ASU. The adoption of this ASU did not have a material impact on the Company's financial statements.

In January 2010, the FASB issued ASU No. 2010-06 regarding fair value measurements and disclosures and improvement in the disclosure about fair value measurements. This ASU requires additional disclosures regarding significant transfers in and out of Levels 1 and 2 of fair value measurements, including a description of the reasons for the transfers. Further, this ASU requires additional disclosures for the activity in Level 3 fair value measurements, requiring presentation of information about purchases, sales, issuances, and settlements in the reconciliation for fair value measurements. This ASU is effective for fiscal years beginning after December 15, 2010, and for interim periods within those fiscal years. The adoption of this ASU did not have a material impact on the Company's financial statements.

PLAN OF OPERATION

We will not receive any proceeds from the sale of shares under this prospectus. Our continued existence is dependent upon our ability to obtain additional financing. Our capital requirements for the next twelve months will continue to be significant. Adelt Design, Inc. has not commenced its major operations of having its carpet binding art sold to anyone. The Company will not manufacture its carpet binding art until it has an order from a client. We plan during the next twelve months to create a client base by aggressively marketing our product to generate: (1) sales to individual clients who place orders; (2) sales on our website; and (3) sales through word of mouth advertising. Adelt Design, Inc. is considered a development stage Company because it has not commenced its major operations. In addition, the Company has not achieved any revenue in connection with its business to date. As a result we are a startup Company. This means we have no operating history or revenue, and are at a competitive disadvantage.

Based on our current operating plan, we do not expect to generate revenue that is sufficient to cover our expenses for the next twelve months. In addition, we do not have sufficient cash and cash equivalents to execute our operations and will need to obtain additional financing to operate our business for the next twelve months. Adelt Design, Inc. will continue to develop its marketing program for its carpet binding art. The Company will need additional capital of \$75,000 for marketing and sales and working capital associated with Adelt over the next year. The Company intends to create a client base within this twelve month time frame. Additional financing, whether through public or private equity or debt financing, arrangements with the security holder or other sources to fund operations, may not be available, or if available, may be on terms unacceptable to us. Our ability to maintain sufficient liquidity is dependent on our ability to raise additional capital.

If we issue additional equity securities to raise funds, the ownership percentage of our existing security holder would be reduced. New investors may demand rights, preferences or privileges senior to those of existing holders of our common stock. Debt incurred by us would be senior to equity in the ability of debt holders to make claims on our assets. The terms of any debt issued could impose restrictions on our operations. If adequate funds are not available to satisfy either short or long-term capital requirements, our operations and liquidity could be materially adversely affected and we could be forced to cease operations.

Our independent auditors have added an explanatory paragraph to their report of our financial statements for the period ended May 31, 2011, stating that our net loss of (\$15,530), lack of revenues and dependence on our ability to raise additional capital to continue our existence, raise substantial doubt about our ability to continue as a going concern. Our consolidated financial statements and their explanatory notes included as part of this prospectus do not include any adjustments that might result from the outcome of this uncertainty. If we fail to obtain additional financing, either through an offering of our securities or by obtaining loans, we may be forced to cease our business.

We are bearing all costs relating to the registration of the common stock, which are estimated at approximately \$20,000. The selling security holder, however, will pay any commissions or other fees payable to brokers or dealers in connection with any sale of the common stock.

Adelt Design, Inc. is considered a development stage Company because it has not commenced its major operations. Adelt Design, Inc. is a development stage Company and in the absent of revenues and operations the Independent Audit Report dated June 3, 2011 cites a going concern. The going concern statement opinion issued by the independent auditors is the result of a lack of operations and working capital.

The Company will need to raise capital which concerned the independent auditors because there is insufficient cash for operations for the next twelve months. We will have to seek other sources of capital.

We established the minimum amount of \$75,000 that the Company will need to raise through debt instruments such as bank loans, or private financing so that operations can start, in order to generate some type of revenue. Presently no other sources have been identified and it is unknown if any other sources will be identified. DISCLOSURE OF COMMISSION POSITION OF INDEMNIFICATION FOR SECURITIES ACT LIABILITIES

We have adopted provisions in our certificate of incorporation that limit the liability of our Directors for monetary damages for breach of their fiduciary duty as directors, except for liability that cannot be eliminated under the Nevada General Corporation Law. Nevada law provides that directors of a Company will not be personally liable for monetary damages for breach of their fiduciary duty as directors, except for liabilities:

- * For any breach of their duty of loyalty to us or our security holders;
- * For acts or omissions not in good faith or which involve intentional misconduct or a knowing violation of law;
- * For unlawful payment of dividend or unlawful stock repurchase or redemption, as provided under Section 174 of the Nevada General Corporation Law; or,
- * For any transaction from which the director derived an improper personal benefit.

In addition, our bylaws provide for the indemnification of officers, directors and third parties acting on our behalf, to the fullest extent permitted by Nevada General Corporation Law, if our board of directors authorizes the proceeding for which such person is seeking indemnification (other than proceedings that are brought to enforce the indemnification provisions pursuant to the bylaws).

These indemnification provisions may be sufficiently broad to permit indemnification of the registrant's executive officers and directors for liabilities (including reimbursement of expenses incurred) arising under the Securities Act of 1933.

Insofar as indemnification for liabilities arising under the Securities Act of 1933 may be permitted to our directors, officers and controlling persons pursuant to the foregoing provisions, or otherwise, we have been advised that in the opinion of the SEC such indemnification is against public policy as expressed in the Securities Act of 1933 and is, therefore, unenforceable. No pending material litigation or proceeding involving our directors, executive officers, employees or other agents as to which indemnification is being sought exists, and we are not aware of any pending or threatened material litigation that may result in claims for indemnification by any of our directors or executive officers.

Our articles of incorporation and applicable Nevada law provide for the indemnification of our directors, officers, employees, and agents, under certain circumstances, against attorney's fees and other expenses incurred by them in any litigation to which they become a party arising from their association with or activities on our behalf. We will also bear the expenses of such litigation for any of our directors, officers, employees, or agents, upon such person's written promise to repay us if it is ultimately determined that any such person shall not have been entitled to indemnification. This indemnification policy could result in substantial expenditures by us, which we will be unable to recoup.

We have been advised that, in the opinion of the SEC, indemnification for liabilities arising under federal securities laws is against public policy as expressed in the Securities Act of 1933, as amended (the "Securities Act"), and is, therefore, unenforceable. In the event that a claim for indemnification for liabilities arising under federal securities laws, other than the payment by us of expenses incurred or paid by a director, officer or controlling person in the successful defense of any action, suit or proceeding, is asserted by a director, officer or controlling person in connection with the securities being registered, we will (unless in the opinion of our counsel, the matter has been settled by controlling precedent) submit to a court of appropriate jurisdiction, the question whether indemnification by us is against public policy as expressed in the Securities Act and will be governed by the final adjudication of such issue. The legal process relating to this matter if it were to occur is likely to be very costly and may result in us receiving negative publicity, either of which factors is likely to materially reduce the market and price for our shares, if such a market ever develops.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors
ADELT DESIGN, INC.
(A Development Stage Company)

We have audited the accompanying balance sheet of Adelt Design, Inc. (A Development Stage Company) as of May 31, 2011, and the related statements of operations, stockholder's equity (deficit) and cash flows for the period from inception on March 31, 2011 through May 31, 2011. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Company was not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Adelt Design, Inc. (A Development Stage Company) as of May 31, 2011, and the related statements of operations, stockholders' equity (deficit) and cash flows for the period from inception on March 31, 2011 through May 31, 2011, in conformity with accounting principles generally accepted in the United States of America.

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in Note 2 to the financial statements, the Company has an accumulated deficit of \$15,530, which raises substantial doubt about its ability to continue as a going concern. Management's plans concerning these matters are also described in Note 2. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

Notes to Financial Statements

Note 1 – Nature of Business and Significant Accounting Policies

Nature of Business

Adelt Design, Inc. (“The Company”) was incorporated in the state of Nevada on March 31, 2011 to manufacture carpet binding art.

These statements reflect all adjustments, consisting of normal recurring adjustments, which in the opinion of management are necessary for fair presentation of the information contained therein.

The Company has adopted a fiscal year end of May 31st.

Development Stage Company

The Company is currently considered a development stage company as defined by FASB ASC 915-10-05. As a development stage enterprise, the Company discloses the deficit accumulated during the development stage and the cumulative statements of operations and cash flows from inception to the current balance sheet date. An entity remains in the development stage until such time as, among other factors, revenues have been realized. To date, the development stage of the Company’s operations consists of developing the business model and marketing concepts.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents

Cash and equivalents include investments with initial maturities of three months or less. The Company maintains its cash balances at credit-worthy financial institutions that are insured by the Federal Deposit Insurance Corporation ("FDIC") up to \$250,000. Deposits with these banks may exceed the amount of insurance provided on such deposits; however, these deposits typically may be redeemed upon demand and, therefore, bear minimal risk. The Company did not have any cash equivalents at May 31, 2011.

Advertising and Promotion

All costs associated with advertising and promoting products are expensed as incurred.

Income Taxes

The Company accounts for income taxes using the asset and liability method, which requires the establishment of deferred tax assets and liabilities for the temporary differences between the financial reporting basis and the tax basis of the Company’s assets and liabilities at enacted tax rates expected to be in effect when such amounts are realized or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. A valuation allowance is provided to the extent deferred tax assets may not be recoverable after consideration of the future reversal of deferred tax liabilities, tax planning strategies, and projected future taxable income.

Segment Reporting

Under FASB ASC 280-10-50, the Company operates as a single segment and will evaluate additional segment disclosure requirements as it expands its operations.

Fair Value of Financial Instruments

Under FASB ASC 820-10-05, the Financial Accounting Standards Board establishes a framework for measuring fair value in generally accepted accounting principles and expands disclosures about fair value measurements. This Statement reaffirms that fair value is the relevant measurement attribute. The adoption of this standard did not have a material effect on the Company’s financial statements as reflected herein. The carrying amounts of cash and accrued expenses reported on the balance sheet are estimated by management to approximate fair value primarily due to the short term nature of the instruments. The Company had no items that required fair value measurement on a recurring basis.

ADELT DESIGN, INC.
(A Development Stage Company)
Notes to Financial Statements

Revenue Recognition

For revenue from product sales, the Company recognizes revenue using four basic criteria that must be met before revenue can be recognized: (1) persuasive evidence of an arrangement exists; (2) delivery has occurred; (3) the selling price is fixed and determinable; and (4) collectability is reasonably assured. Determination of criteria (3) and (4) are based on management's judgment regarding the fixed nature of the selling prices of the products delivered and the collectability of those amounts. Provisions for discounts and rebates to customers, estimated returns and allowances, and other adjustments are provided for in the same period the related sales are recorded. The Company defers any revenue for which the product has not been delivered or is subject to refund until such time that the Company and the customer jointly determine that the product has been delivered or no refund will be required.

The Company has not generated revenues to date.

Basic and Diluted Loss Per Share

The basic net loss per common share is computed by dividing the net loss by the weighted average number of common shares outstanding. Diluted net loss per common share is computed by dividing the net loss adjusted on an "as if converted" basis, by the weighted average number of common shares outstanding plus potential dilutive securities. For the periods presented, there were no outstanding potential common stock equivalents and therefore basic and diluted earnings per share result in the same figure.

Stock-Based Compensation

The Company adopted FASB guidance on stock based compensation upon inception on March 31, 2011. Under FASB ASC 718-10-30-2, all share-based payments to employees, including grants of employee stock options, to be recognized in the income statement based on their fair values. Pro forma disclosure is no longer an alternative. The Company did not issue any stock and stock options for services and compensation for the period from March 31, 2011 (Inception) through May 31, 2011.

Recent Accounting Pronouncements

In June 2009, the Financial Accounting Standards Board ("FASB") issued the FASB Accounting Standards Codification (the "ASC"). The ASC has become the single source of non-governmental accounting principles generally accepted in the United States ("GAAP") recognized by the FASB in the preparation of financial statements. The ASC does not supersede the rules or regulations of the Securities and Exchange Commission ("SEC"), therefore, the rules and interpretive releases of the SEC continue to be additional sources of GAAP for the Company. The Company adopted the ASC upon inception at March 31, 2011. The ASC does not change GAAP and did not have an effect on the Company's financial position, results of operations or cash flows.

In February 2010, the FASB issued ASU No. 2010-09 regarding subsequent events and amendments to certain recognition and disclosure requirements. Under this ASU, a public company that is a SEC filer, as defined, is not required to disclose the date through which subsequent events have been evaluated. This ASU is effective upon the issuance of this ASU. The adoption of this ASU did not have a material impact on the Company's financial statements.

In January 2010, the FASB issued ASU No. 2010-06 regarding fair value measurements and disclosures and improvement in the disclosure about fair value measurements. This ASU requires additional disclosures regarding significant transfers in and out of Levels 1 and 2 of fair value measurements, including a description of the reasons for the transfers. Further, this ASU requires additional disclosures for the activity in Level 3 fair value measurements, requiring presentation of information about purchases, sales, issuances, and settlements in the reconciliation for fair value measurements. This ASU is effective for fiscal years beginning after December 15, 2010, and for interim periods within those fiscal years. The adoption of this ASU did not have a material impact on the Company's financial statements.

(A Development Stage Company)
Notes to Financial Statements

Note 2 – Going Concern

As shown in the accompanying financial statements, the Company is in the development stage, has incurred net losses of \$15,530, an accumulated deficit of \$15,530, has no revenues, and cash on hand of \$15,570 as of May 31, 2011. These factors raise substantial doubt about the Company's ability to continue as a going concern. Management is currently seeking additional sources of capital to fund short term operations. The Company, however, is dependent upon its ability to secure equity and/or debt financing and there are no assurances that the Company will be successful, therefore, without sufficient financing it would be unlikely for the Company to continue as a going concern.

The financial statements do not include any adjustments that might result from the outcome of any uncertainty as to the Company's ability to continue as a going concern. The financial statements also do not include any adjustments relating to the recoverability and classification of recorded asset amounts, or amounts and classifications of liabilities that might be necessary should the Company be unable to continue as a going concern.

On May 15, 2011, the Company issued 18,000,000 founder's shares of common stock at the par value of \$0.001 to the Company's CEO, Larry Adelt in exchange for proceeds of \$18,000.

Note 4 – Stockholder's Equity

ITEM 17. UNDERTAKINGS.

The undersigned Registrant hereby undertakes to provide to the underwriters at the closing specified in the underwriting agreement, certificates in such denomination and registered in such names as required by the underwriter to permit prompt delivery to each purchaser.

Insofar as indemnification for liabilities arising under the Securities Act of 1933 may be permitted to directors, officers and controlling persons of the Registrant pursuant to the foregoing provisions, or otherwise, the Registrant has been advised that, in the opinion of the Securities and Exchange Commission, such indemnification is against public policy as expressed in the Securities Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the Registrant of expenses incurred or paid by a director, officer or controlling person of the Registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the Registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Securities Act and will be governed by the final adjudication of such issue.

The undersigned Registrant hereby undertakes that:

- (1) For purposes of determining any liability under the Securities Act, the information omitted from the form of prospectus filed as part of this registration statement in reliance upon Rule 430A and contained in the form of prospectus filed by the registrant pursuant to Rule 424(b)(1) or (4) or 497(h) under the Securities Act shall be deemed to be part of the registration statement as of the time it was declared effective.
- (2) For purposes of determining any liability under the Securities Act, each post-effective amendment that contains a form of prospectus shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial *bona fide* offering thereof.
